electronic and optical products

**↑ 24.2%**

Manufacture of basic pharmaceutical  
substances and medicines  
and other pharmaceutical products

\*The grouping of enterprises was made on the basis of the Polish Classification of Activities - PKD 2007, classifying the enterprise into a specific category according to the predominant kind of activity, in accordance with the current organizational status in the period in question. Recorded changes (increase/decrease) in retail sales, in individual groups of enterprise activities may therefore also result from changes in the dominant kind of enterprise activity and organisational changes (e.g. mergers of enterprises). This has no impact on the indices of total retail sales.

↑ ↓ increase/decrease compared to the corresponding period of previous year.

substances and medicines  
and other pharmaceutical products

\*The grouping of enterprises was made on the basis of the Polish Classification of Activities - PKD 2007, identifying the enterprise into a specific category on the basis of the predominant activity. It concerns only the manufacturing sector. Excluded is tourism. Records of shops (retail trade) in wholesale and retail trade are not included. Also excluded are foreign-invested and local enterprise group and agricultural enterprises (e.g. market of enterprises). Figures are drawn from the index of total retail sales.

↑ ↓ Increase/decrease compared to the corresponding period of previous year.
