QUALITY GUARANTEE

The census is the most important statistical survey not only in Poland, but also in the world. The data provided in the census are of the highest quality because they meet the following conditions:

- universality (they include the population and housing),
- simultaneity (they show the state at the same moment),
- periodicity (held every 10 years)

The censuses are carried out in accordance with Polish legal acts as well as the recommendations and standards of international organizations, such as the EU and the United Nations, therefore the quality of the data enables international comparisons.
